

Welcome

Rhyme Genie is the most powerful and intuitive rhyming dictionary software available for Mac OS® and Windows®. To make your first experience as enjoyable and productive as possible, this quick tutorial will guide you through the easy installation and setup procedures as well as offer useful tips for rhyming your first words.

Built-in Help

At any time during your use of Rhyme Genie you may take advantage of the extensive help section by clicking on the 'Help' button in the lower right corner of the main screen.

It will familiarize you with all of the software's features and explain the supported rhyme types in great detail.

Mac Installation

1. Insert the DVD into your DVD-drive. If the DVD directory does not open automatically, select the DVD icon in your finder window.
2. Double click on the file "Rhyme Genie Installer" and follow the installation instructions.
3. Start the program by going to your 'Applications' folder, opening Rhyme Genie's newly created folder and double clicking on the file Rhyme Genie.

PC Installation

1. Insert the DVD into your DVD-drive. If the DVD directory does not open automatically, double click on the DVD icon in your computer's removable storage directory.
2. Double click on the file "Install_Rhyme_Genie" and follow the installation instructions.
3. Start the program by double clicking on its newly created short cut icon in your desktop area or by selecting Rhyme Genie from the Windows Start Menu.

First Launch

After launching the software for the first time you may test its strength by accepting the license agreement and pressing "Demo Mode" in the lower right corner of the activation screen or proceed with Rhyme Genie's activation.

Once you are in the main screen input the word you wish to rhyme into the search field and press <enter> or <return>.

You can limit or expand your search results by choosing a desired dictionary. Click on the book symbol just to the right of the search field and select one of the available options.

A wordfilter in the upper right corner of the screen allows you to display only rhyme mates that belong to a selected category.

To choose a different rhyme type or look up the search word in the dictionary and thesaurus, click on the arrows next to the magnifying glass symbol just to the left of the search field.

To transfer words or phrases to your word processor you can copy them to Rhyme Genie's clipboard by simply clicking on them with your mouse.

Rhyming the Easy Way

The most powerful rhyme type is Rhyme Genie's intelligent rhyme. It can find a wide variety of rhymes by using unique features. These features are best illustrated when you take the following steps:

1. Make sure that the Multi-Syllabic option is on and replace the search word with the word 'sensation'. Press <enter> or <return>. You will find perfect rhyme mates for 'sensation'.
2. Decrease the similarity in sound by clicking on the 'L' button. You will be presented with useful near rhymes for 'sensation'.
3. Deactivate the Multi-Syllabic option. You will see all the entries that rhyme with the last syllable of 'sensation'.

Please note that the multi-syllabic option and the similarity in sound function are most effective when the search word has at least two syllables and is feminine.

Activation

You can unlock all of Rhyme Genie's power for your particular computer at any time by going to the activation screen, completing the registration information in section 1 and sending a license request via the internet in section 2.

To complete your registration information please use the serial number provided in this DVD package.

After a successful license request you will receive the activation code via email. Copy the code to your computer's clipboard. Then go to section 3 of the activation screen and click on the button "Paste Code & Activate".

Rhyme Genie will now run fully unlocked. The activation code will never expire and you can use it to activate all subsequent updates of Rhyme Genie if they are installed on the same computer system.

If you wish to use Rhyme Genie on a different computer, please take advantage of the discount for an additional activation code offered in the store on www.rhymegenie.com.

Rhyme Every Word

Should Rhyme Genie not find a rhyme mate for a particular word please do the following:

1. Make sure the search word is properly capitalized. Rhyme Genie's search field is case-sensitive.
2. Check if you have selected the unabridged dictionary just to the right of the search box.
3. Verify that the wordfilter in the upper right corner is off.
4. Have the options 'Phrases' and 'Proper N, etc.' activated.
5. Contact support@idolumic.com.

Your suggestions for improving Rhyme Genie are greatly appreciated.
